

Thirty Successes for a Positive School Environment

The following list of inviting and DIS-inviting verbal comments; personal behavior, physical environments and printed signs have been identified by educators and students as indicators of the quality of life in schools.

The presence or absence of items on these lists may help to identify the inviting or DIS-inviting stance taken by those who live and work in and around schools.

These items may also serve as a checklist for those in schools who are already doing good things and who want to do them even better.
